Friday 8 April 2011

Domestic Violence – Level 1 (Introductory – Intermediate)

This Workshop is for professionals in Health and Community Services, who may work with Domestic Violence but are not Domestic Violence specialists. Workers in specialist services e.g. refuges, who have not yet had formal DV training will also benefit.

Greg Yee has been working in the domestic violence field for 19 years. His work has included relationship therapy, developing and coordinating domestic violence services for women and children in the NGO sector and co-facilitating men's behaviour change programs for male perpetrators. Greg is extremely well respected in the industry, having a unique perspective from the wide range of DV work he has done.

Limited places are available. Preference will be given to agencies providing services in the Eastern Suburbs Area - limit 2 places per agency.

Attendance for full day only will be accepted

This workshop has been organised by South Eastern Sydney Local Health Network, in partnership with The Deli Women & Children's Centre.

APPLICATION FORM

Name:

Agency:

Mailing Address:

Phone No:
